

Dear Sir,

We are professionally qualified people involved in supplying high quality neem and karanj oil from India. Our branch office in New Hampshire, USA is rendering product knowledge and appropriate technology of using different botanicals in animal and plant health care. We are adopting the traditional technology in oil extraction (cold pressed neem oil and expelling technology in pungam oil extraction)

We are supplying the oil only to the selective buyers on long-term basis. We are tied with a University for HPLC analysis of Azadirachtin a, b, Salinitrol and nimbin for each and every consignment.

Though most of the botanicals seasonal we may able to supply our botanicals year round. However we are propose our customers to buy right product during the season.
